

## ALSID, winner of the Innovation Prize\* of Les Assises de la Sécurité 2017 and of the People's Choice Award

*ALSID's Directory Security Compliance solution assesses the security level of Active Directory infrastructures in real time, to meet a major market need*

***ALSID was named winner of the Innovation Prize 2017 by a jury of cybersecurity experts\*\* at the Cercle Européen de la Sécurité et des Systèmes d'Information. The award recognises the technical qualities of ALSID's solution that solves a problem faced by many companies. Not only did ALSID win the Innovation Prize, but it was also the favourite for the People's Choice Award.***

### ALSID, winner of the 2017 Innovation Prize and the People's Choice Award

#### Innovation Prize 2017

Start-up ALSID stood head and shoulders above its competitors thanks to its Directory Security Compliance solution that identifies the risks weighing on Active Directory infrastructures, adopting a pragmatic approach to effectively deal with today's threats. In a context of growing risks, the Active Directory has become a critical issue for companies and Directory Security Compliance protects these vulnerable infrastructures.

As the prize winner, ALSID also received admission as partner to Les Assises in Monaco in October.

*"This prize rewards a start-up of exceptional maturity for a company that's just one year old", explained **Sylvain Thiry, Managing Director of Customer Relations at the Shared IT Services Division, Groupe SNCF.** "Their product is totally in step with CISOs' current concerns. Plus, its quick and easy installation is a definite advantage. I am convinced that ALSID has a bright future ahead of it. Visitors had better be prepared to queue up at its stand at the 2017 edition of Les Assises."*

#### People's Choice 2017

ALSID was also the favourite of members of the Cercle de la Cybersécurité following a Pitch Elevator evening. During the event, the top three start-ups (out of about 20 applications) gave a 10-minute presentation of their solution to the 500 professionals present.

*"It is such an honour for us to have reached the finals, and even more to have won both of these prestigious prizes, especially because today is ALSID's first anniversary", exclaimed **Emmanuel Gras, ALSID co-founder.** "We'll be at Les Assises 2017; an opportunity for us to continue our commercial development and show that we offer a real innovation on the cybersecurity market that contributes to optimally protecting corporate infrastructures"*

\*Les Assises de la Sécurité's Innovation Prize was created in 2005. In 12 years, it has become the reference for recognising innovation in the information systems security field. More than just a prize, it's an unmistakable springboard for sector start-ups.
