

**From 11 to 14 October
Grimaldi Forum (Monaco)**

**France's ISS experts and professionals meet
at the 17th edition of Les Assises de la Sécurité**

Objectives: discuss, debate and explore

Focussing on increasingly important current events, Les Assises de la Sécurité continue to be the key event for the sector. This 17th edition features several new events:

- *The Before, held the day before the official opening of Les Assises, brings together managers and personalities for a day of work and reflection around major corporate issues.*
- *The Grand Prix des RSSI recognises CISOs, rewarding the best projects or professional approaches in cybersecurity.*

Les Assises will also have the pleasure of hosting the CyberTaskForce, a working group of stakeholders impacting the cyber chain (members of parliament, military personnel, entrepreneurs, etc.) created in May. Plus, like every year, major issues of the day, such as GDPR, Artificial Intelligence, Intelligence Threat, etc. will be the focus of expert round tables and partner workshops, in order to help participants better understand future trends and changes.
